of affecting the marketplace for radio devices and services, as well as changing the means by which wireless communications policy is developed and implemented. Sun, 04 Nov 2018 17:37:00 GMT

Cognitive Radio Technology | ScienceDirect - A cognitive radio (CR) is a radio that can be programmed and configured dynamically to use the best wireless channels in its vicinity to avoid user interference and congestion. Such a radio automatically detects available channels in wireless spectrum, then accordingly changes its transmission or reception parameters to allow more concurrent wireless communications in a given spectrum band at ...
