the social face the individual presented to the worldâ€™"a kind of mask, designed on the one hand to make a definite impression upon others, and on the other to conceal the true nature of the individual".

Persona (psychology) - Wikipedia - In this sense, the persona is a transparent mask, wearing the traits of two poets and responding to two situations, old and new, which are similar and overlapping. In literary analysis, any narrative voice that speaks in the first person and appears to define a particular character is often referred to as a persona. It is contrasted with a third-person narrative voice, generally taken to be more objective and impersonal. Persona - Wikipedia -
