The theory behind the added chromatic note is that it ... intent is to keep the chord scales diatonic to the overall tonality of the composition. Here are some examples in a major key tonality. Fri, 09 Nov 2018 16:12:00 GMT Chord Scale Theory - Ed Saindon - A chord is a type of musical structure, built from 3 or more notes. For example, C major contains the notes C, E and G. C, E and G are therefore the building blocks of the C major chord. However, when learning chord construction, it's far more effective to think of these building blocks as intervals rather than notes. It means you only have to learn each chord once and simply move the formation of notes to a new fret to play a

what is chord theory

higher or lower sounding version of that same chord.
